A TRADE PARTNER INITIATIVE FROM

SIGMA

LEADING THERMAL MANAGEMENT SOLUTIONS

SMART THINKING ON SERVICE PARTS FOR ALL MAKES OF HEAVY DUTY HVAC UNITS

ALL MAKES- YOUR ONE STOP SHOP FOR HVAC PARTS

As a leading manufacturer of Heavy Duty HVAC Units for mining and industrial markets SIGMA recognise the need for operators of special vehicles to have access to cost effective common service parts for all makes of Heavy Duty HVAC units.

SIGMA in a trade partnership has created the All Makes One stop shop for HVAC parts, supplying a comprehensive range of aftermarket parts for all brands and all makes of heavy duty HVAC. The aftermarket service parts are easy to access, competitively priced and validated by SIGMA HVAC as fit for purpose.

THE ALL MAKES CATALOGUE IS EASY TO USE

Formatted by manufacturer, part number and product description, it is a swift process to identify the part you need.

ORDERING IS THE SAME AS USUAL

In the same way you send an order for a SIGMA Genuine part you can now place an order for an All Makes part, it's that simple.

For SIGMA contact and customer service see back cover for more information.

THE SIGMA STORY

SIGMA Air Conditioning is a leading global company in the development of Heavy Duty HVAC Systems for the Rail, Mining, Industrial and Defence markets and an OEM supplier to key mining brands.

Our products are designed and manufactured with over 50 years of specialised HVAC experience.

For more information on the full range of SIGMA products, including access to your own electronic copy of the SIGMA HVAC Spare Parts Catalogue, go to www.sigma-hvac.com. Need additional hard copies of the new sigma catalogue, simply email mid.aus@sigma-hvac.com or call your local SIGMA sales representative.

UPGRADE YOUR HVAC TO SIGMA

All-Makes, the trade partner initiative by SIGMA creates a one stop shop for HVAC parts making your business decisions easier and reliability of parts supply a lot more confident.

Once your current HVAC unit has reached the point of its useful life, SIGMA have many options to upgrade to a new SIGMA unit. Installation is easy, from direct drop-in replacement units through units that simply required an easy to apply interface. We can answer all your questions and change over needs just give us a call.

**SIGMA****MINING SYSTEMS.**

SIGMA mining equipment is designed to the highest of industry standards to suit the harshest of mining conditions. Designed and engineered to withstand extreme ambient temperatures, punishing shock & vibration loads and dust saturated atmospheres.

**INDUSTRIAL SYSTEMS.**

The SIGMA range of industrial air conditioning equipment is specifically designed to operate in dust laden corrosive atmospheres and very high ambient temperatures of up to 75°C (185°F). Environments include aluminium smelters, refinery operated cabins, earthmoving equipment, ports, construction, cranes, switch rooms and other mobile industrial equipment.

**DEFENCE SYSTEMS.**

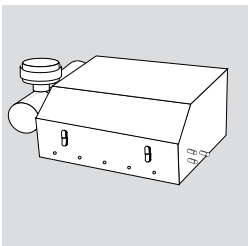

The SIGMA brand comprises a complete range of customized air conditioning equipment, with a product to suit specific defence projects and application. SIGMA offer unique equipment to suit both static and mobile applications for a specific purpose within the defence industry.

**TRACK MAINTENANCE.**

Drivers' comfort is an important aspect to ensure the safe operation of rolling stock networks globally. SIGMA's locomotive driver's cab air conditioning systems have been designed to operate in some of the harshest conditions both around the world and in Australia where outside temperatures reach as high as 50°C.

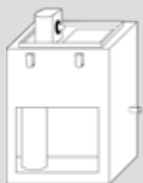

SIGMA Air conditioning is part of the Knorr- Bremse Group, based in Munich Germany, the world's leading provider of system solutions for rail and commercial vehicles. Sigma Air Conditioning is designed and manufactured with over 50 years of specialised HVAC experience.
